

EUROPE URBAN BUS MARKET OUTLOOK REPORT

Global Mass Transit has just launched the second edition of the Europe Urban Bus Market Outlook Report which will provide a comprehensive overview of the existing urban bus market (including Euro standard buses, CNG buses, electric buses, hydrogen-fuelled buses, biogas/bio-methane buses, hybrid buses, etc.) and outlines investment plans of cities to deploy buses.

The report will comprise two distinct sections.

Part 1 of the report will describe the existing state of, and the expected opportunities in, the European bus industry in terms of current market size, market outlook, operators, ridership, bus rolling stock (by type, by age, etc.), financing, key players, plans to renew and expand bus fleet, etc. It will examine recent developments, key trends, growth drivers and challenges, and will provide the future outlook for the industry.

Part 2 of the report will provide updated information on the bus network, fleet and plans of 75 cities in Europe.

Each city profile will provide information on:

- ❖ City background
- ❖ Key players
- ❖ Key policies and plans
- ❖ Network
- ❖ Ridership
- ❖ Modal share
- ❖ Existing and planned bus rolling stock (by type, by age)
- ❖ Capital projects
- ❖ Investments planned
- ❖ Demand projections
- ❖ Upcoming tenders
- ❖ Key contracts awarded
- ❖ Recent developments
- ❖ Contact personnel

The report will be available in the MS PowerPoint format (converted to PDF).

The report will be useful to organisations interested in the European bus industry - public transport authorities/agencies and operators, government transport departments, city governments, policymaking and regulatory bodies, bus OEMs and technology providers, infrastructure OEMs, charging solution suppliers and battery manufacturers, energy providers, multilateral aid agencies, banks and financial institutions, academic institutions, research and development organisations, consultants, etc.

It is priced at EUR3,000. As special offer for Public Transport Authorities/Agencies the report is priced at EUR2,500.

The report will be released in September 2019.

Table of Contents

PART 1: EXISTING AND EVOLVING EUROPEAN URBAN BUS MARKET

1.1 EXISTING EUROPE URBAN BUS MARKET

- 1.1.1 Overview
- 1.1.2 Current market size
- 1.1.3 Bus rolling stock (Euro standard, electric, hybrid, hydrogen-fuelled, alternative fuels, etc)
- 1.1.4 Ridership trends
- 1.1.5 Key operators, operating models
- 1.1.6 Key EU initiatives to promote deployment of clean buses (electric, hydrogen-fuelled, hybrid, alternative fuels, etc)
- 1.1.7 Revisions to the Clean Vehicles Directive
- 1.1.8 Nationwide plans for deployment of clean buses
- 1.1.9 Key clean bus pilot projects
- 1.1.10 Autonomous and electric bus experiments
- 1.1.11 Charging infrastructure for electric buses
- 1.1.12 Hydrogen fuelling infrastructure
- 1.1.13 Total cost of ownership of zero-emission buses
- 1.1.14 Funding and finance
- 1.1.15 Key trends

1.2 RECENT DEVELOPMENTS (Last 12 months)

- 1.2.1 Recent initiatives regarding buses
- 1.2.2 Recent announcements by city governments
- 1.2.3 Recent policies and plans
- 1.2.4 Recent contracts awarded
- 1.2.5 Recent deliveries
- 1.2.6 Recent fundings and financings
- 1.2.7 Recent technology launches
- 1.2.8 Other recent developments

1.3 OUTLOOK AND OPPORTUNITIES

- 1.3.1 Key growth drivers
- 1.3.2 Market outlook for clean buses in Europe
- 1.3.3 Upcoming bus-based projects
- 1.3.4 Planned bus rolling stock procurements (Euro standard, electric, hybrid, hydrogen-fuelled, alternative fuels, etc)
- 1.3.5 Technology innovation for clean buses
- 1.3.6 Open tenders with contracts to be awarded
- 1.3.7 Key issues and challenges
- 1.3.8 Outlook for clean bus deployments

1.4 Key player profiles

- 1.4.1 Overview
- 1.4.2 Competitive landscape
- 1.4.3 Collaborations in the bus market
- 1.4.4 Profiles of key players

PART 2: CITY PROFILES

Each city profile will provide information on:

- City background
- Key players
- Key policies and plans
- Network
- Ridership
- Modal share
- Existing and planned bus rolling stock (by type, by age)
- Capital projects
- Investments planned
- Demand projections
- Upcoming tenders
- Key contracts awarded
- Recent developments

Sources and Methodology

Global Mass Transit Research's industry analysts have utilised primary and secondary research sources in preparing this report. Primary sources include information obtained through telephone interviews and emails from public transport authorities, operators and regulators. Secondary sources include, but are not limited to, project websites and status reports; websites, annual reports, capital programmes and financial reports of transport authorities and operators; documentation provided by relevant financing institutions; investor presentations; analyst reports; government plans and documents; websites of ministries and regulators; websites of industry associations; internal and external proprietary databases; news articles; and press release reports. Wherever applicable, research sources are cited within the report.

Our analysts and researchers have combined the information from these primary and secondary sources with their industry expertise to synthesise the qualitative and quantitative analysis presented in this report. In cases where data was not available, we have used the estimates from authentic published reports or press releases.

Great care has been taken to ensure that all analysis is supported by facts. In situations where facts were not available and assumptions were made to conduct analysis, we have explained our assumptions and our methods of estimation.

Global Mass Transit Research takes every possible care to provide information using resources it believes are most accurate and reliable. It, however, shall not be liable for losses or consequences, if any, arising from the use of the information contained in the document.

About the Publishers

Global Mass Transit Research is a leading provider of information and analysis on the global mass transit industry. It publishes the **Global Mass Transit Report** (a monthly newsletter) and **Global Mass Transit Weekly** (a weekly update). It also operates the www.globalmasstransit.net website.

Through these products, it provides information on all key developments, trends and issues in the sector; tracks major projects, contracts and investments; profiles leading mass transit authorities/operators and discusses their strategies; reports on regulatory initiatives and examines their implementation; provides the latest available data and statistics; and features views and perspectives of experts and top industry players.
