

NEW AND UPCOMING URBAN RAIL PROJECTS REPORT

Global Mass Transit Research has just released the first edition of the **New and Upcoming Urban Rail Projects Report**, which tracks over 500 projects from across the world. These projects are in the planning or procurement stage. **Most of the contracts in these projects are yet to be awarded.**

The projects include light rail, tram, monorail, automated people mover (APM), metrorail, subway, rapid transit, airport rail link (ARL), commuter rail and suburban rail. The countries are organised into five regions: North America, Latin America, Asia, Europe, and Middle East and Africa.

Part 1 of the report (**PDF document**) analyses market opportunities, in terms of region, mode, alignment, developer, expected completion and cost.

Part 2 of the report (**MS Excel database**) provides detailed and up-to-date information on each project, including transport mode, developer/ operator, capital cost (USD million), source of funds, length (km) by type of alignment, number of stations by type of alignment, connection to other public transport systems, expected ridership, fare system, rolling stock, track gauge, power and technology, current stage of project, expected completion and key contact personnel.

The report will be useful to organisations interested in the railway sector-government agencies, transport authorities, operators, service and technology providers, equipment manufacturers and suppliers, EPC contractors, investors/lenders, research organisations, industry consultants, regulatory agencies, development institutions, etc.

The price of the report is **USD 4,000**. There are special 'Early Bird' discounts. The price is **USD 3,000 (25% discount)** for orders and payments received on or before **July 7, 2018** and **USD 3,400 (15% discount)** for orders and payments received on or before **July 25, 2018**.

Sources and Methodology

Global Mass Transit Research's industry analysts have utilised primary and secondary research sources in preparing this report. Primary sources include information obtained through telephone interviews and emails from public transport authorities, operators and regulators. Secondary sources include, but are not limited to, project websites and status reports; websites, annual reports, capital programmes and financial reports of transport authorities and operators; documentation provided by relevant financing institutions; investor presentations; analyst reports; government plans and documents; websites of ministries and regulators; websites of industry associations; internal and external proprietary databases; news articles; and press release reports. Wherever applicable, research sources are cited within the report.

Our analysts and researchers have combined the information from these primary and secondary sources with their industry expertise to synthesise the qualitative and quantitative analysis presented in this report. In cases where data was not available, we have used the estimates from authentic published reports or press releases.

Great care has been taken to ensure that all analysis is supported by facts. In situations where facts were not available and assumptions were made to conduct analysis, we have explained our assumptions and our methods of estimation.

Global Mass Transit Research takes every possible care to provide information using resources it believes are most accurate and reliable. It, however, shall not be liable for losses or consequences, if any, arising from the use of the information contained in the document.
