Database of 280 new and upcoming projects

Global Mass Transit Research has just launched the Global Light Rail Projects Report & Database 2020-2035, which will track 280 new and upcoming light rail projects in 55 countries across the world.

These 280 projects will involve the development of light rail systems spanning over 3,440 km and covering around 2,725 stations at an estimated investment of more than USD180 billion and present significant opportunities for contractors, developers, financiers, rolling stock providers, fare system technology providers and signalling system providers.

The report will include 2 sections:

- A PPT (converted to PDF document) providing an analysis of the opportunities in terms of geographic region, development stage (planned, in procurement, or under construction) and type of project (new line of an existing system, extension of existing line, or new system).
- An MS Excel database organised into five regions: North America, Latin America, Asia, Europe, and Middle East and Africa. It provides detailed and up-to-date information on each project, with separate Excel sheets for each of the five geographic regions.

Each project profile in the MS Excel database provides information on:

- Developer/operator
- Sources of funds
- Planned fare system
- Network length
- Key contractors
- Planned rolling stock
- Route
- Connections with other public transport modes
- Track and power
- Planned service frequency
- Expected ridership
- Planned signalling technology
- Expected opening
- No. of stations
- Key contact person for the project
- Capital cost
- Project type
- Additional information

Key benefits to the buyers:

- Get the latest region-wise expected investment in light rail projects by 2025, 2030 and 2035
- Focus on key high investment projects across regions
- Explore opportunities for construction, consulting, and supply of rolling stock, fare systems, signalling system, etc., available in the database as part of 280 upcoming light rail projects
- Receive comprehensive analysis of projects by type (expansion, modernisation, upcoming), status (feasibility stage, planning stage, tendering stage, under construction), and expected completion (2025, 2030 and 2035)
- Learn about planned investment and component requirements (fare system, rolling stock, signalling and communications technology)
- Get the market outlook for light rail and station development and the forecast of expected demand for rolling stock, signalling and fare system

The report will be useful to organisations interested in the railway sector-government agencies, transport authorities, operators, service and technology providers, equipment manufacturers and suppliers, EPC contractors, investors/lenders, research organisations, industry consultants, regulatory agencies, development institutions, etc.

The report will be released in July 2020.

PART 1: ANALYSIS OF GLOBAL LIGHT RAIL PROJECTS

1. Overview

1.2 Analysis of projects by region
   1.2.1 Introduction
   1.2.2 Projects in North America
   1.2.3 Projects in Latin America
   1.2.4 Projects in Asia Pacific
   1.2.5 Projects in Europe
   1.2.6 Projects in Middle East and Africa

1.3 Analysis of projects by status
   1.3.1 Introduction
   1.3.2 Projects under planning
   1.3.3 Projects under construction
   1.3.4 Projects under procurement
   1.3.5 Modernisation projects underway

1.4 Analysis of fare system, rolling stock and technology
   1.4.1 Analysis of fare systems
   1.4.2 Analysis of rolling stock
   1.4.3 Analysis of signaling and communications technology

1.5 Analysis of projects by alignment
   1.5.1 Elevated rail projects
   1.5.2 Underground rail projects
   1.5.3 At-grade rail projects

1.6 Analysis of projects by expected completion
   1.6.1 Introduction
   1.6.2 Projects expected to be completed by 2025
   1.6.3 Projects expected to be completed between 2025 and 2030
   1.6.4 Projects expected to be completed beyond 2030

1.7 Analysis of projects by cost
   1.7.1 Introduction
   1.7.2 Projects with costs less than USD 500 million
   1.7.3 Projects with costs between USD 500 million and USD 1 billion
   1.7.4 Projects with costs between USD 1 billion and USD 2 billion
   1.7.5 Projects with costs over USD 2 billion

1.8 Analysis of projects by type of developer
   1.8.1 Projects being developed by private developers, PPPs
   1.8.2 Projects being developed by government
   1.8.3 Analysis of projects by type of funding
   1.8.4 Recent developments

1.9 Expected or planned investment in light rail projects
   1.9.1 Summary
   1.9.2 Expected investment in new build projects
   1.9.3 Expected investment in network expansion and modernisation
   1.9.4 Expected investment in rolling stock
   1.9.5 Expected investment in signalling systems
   1.9.6 Expected investment in fare systems

1.10 Emerging opportunities and prospects
   1.10.1 Opportunities for EPC contractors
   1.10.2 Opportunities for private operators
   1.10.3 Opportunities for rolling stock suppliers
   1.10.4 Opportunities for railway system suppliers (signalling, fare system, etc)
   1.10.5 Opportunities for consultants

1.11 Key high investment projects

1.12 Recent developments and trends

1.13 Risks and challenges

PART 2: PROJECT PROFILES (EXCEL DATABASE)

Each project profile will include information on developer/operator, network length, connections with other public transport modes, route, number of stations, expected ridership, project type, planned service frequency, expected opening, planned fare system, capital cost, planned rolling stock, sources of funds, track and power, key contractors, planned signalling technology, key contact person for the project and additional information.
# Table of Contents

## 2.1 North America
- 2.1.1 Canada
- 2.1.2 United States

## 2.2 Latin America
- 2.2.1 Bolivia
- 2.2.2 Brazil
- 2.2.3 Chile
- 2.2.4 Colombia
- 2.2.5 Guatemala
- 2.2.6 Mexico
- 2.2.7 Nicaragua
- 2.2.8 Peru

## 2.3 Asia Pacific
- 2.3.1 Australia
- 2.3.2 China
- 2.3.3 India
- 2.3.4 Indonesia
- 2.3.5 Kazakhstan
- 2.3.6 Malaysia
- 2.3.7 New Zealand
- 2.3.8 Philippines
- 2.3.9 South Korea
- 2.3.10 Sri Lanka
- 2.3.11 Taiwan
- 2.3.12 Thailand
- 2.3.13 Uzbekistan
- 2.3.14 Vietnam

## 2.4 Europe
- 2.4.1 Belgium
- 2.4.2 Denmark
- 2.4.3 Finland
- 2.4.4 France
- 2.4.5 Germany
- 2.4.6 Greece
- 2.4.7 Hungary
- 2.4.8 Ireland
- 2.4.9 Italy
- 2.4.10 Luxembourg
- 2.4.11 Norway
- 2.4.12 Poland
- 2.4.13 Portugal
- 2.4.14 Russia
- 2.4.15 Spain
- 2.4.16 Sweden
- 2.4.17 Switzerland
- 2.4.18 Turkey
- 2.4.19 UK

## 2.5 Middle East and Africa
- 2.5.1 Algeria
- 2.5.2 Bahrain
- 2.5.3 Cameroon
- 2.5.4 Egypt
- 2.5.5 Iran
- 2.5.6 Israel
- 2.5.7 Mauritius
- 2.5.8 Morocco
- 2.5.9 Nigeria
- 2.5.10 Saudi Arabia
- 2.5.11 Tunisia
- 2.5.12 United Arab Emirates
Sources and Methodology

Global Mass Transit Research's industry analysts have used various primary and secondary sources in preparing this report.

Primary sources include data and statistics obtained through interactions over the telephone and through emails.

Extensive secondary research has also been conducted by the industry analysts. These secondary sources include, but are not limited to: websites of developers and operators; annual reports; investor presentations; analyst reports; government documents, plans and statistical databases; websites of relevant ministries and regulators; websites of relevant industry associations; internal and external proprietary databases; and news articles and press reports. Wherever applicable, all research sources have been cited appropriately in the report.

The finding of these primary and secondary sources, combined with our industry expertise, have been synthesised into the qualitative and quantitative analyses presented in this report.

Great care has been taken to ensure that the analysis presented in this report is well supported by facts. Where facts were not available and assumptions were made, we have listed our assumptions.

Global Mass Transit Research takes every possible care to provide information using resources it believes are most accurate and reliable. It, however, shall not be liable for losses or consequences, if any, arising from the use of the information contained in the document.

About the Publishers

Global Mass Transit Research is a leading provider of information and analysis on the global mass transit industry. It publishes the Global Mass Transit Report (a monthly newsletter) and Global Mass Transit Weekly (a weekly update). It also operates the www.globalmasstransit.net website.

Through these products, it provides information on all key developments, trends and issues in the sector; tracks major projects, contracts and investments; profiles leading mass transit authorities/operators and discusses their strategies; reports on regulatory initiatives and examines their implementation; provides the latest available data and statistics; and features views and perspectives of experts and top industry players.
