

Table of Contents

PART 1: INDUSTRY OVERVIEW AND OUTLOOK

1. Executive Summary

2. Industry Overview

- Current Market Size and Growth
- Industry Structure
- Rail Steel Standards
- Pricing Structure
- Key Trends
- Outlook and Opportunities
- Issues, Risks and Challenges

3. Recent Developments

- Recent Deliveries
- Recent Contracts Awarded
- Recent Investment Announcements
- Recent Capacity Additions
- Recent Entrants

4. Outlook and Projections 2019-2030

- Growth Drivers
- Market Projections and Rail Steel Requirements for Upcoming 1,000 Rail Projects (2019-2030)
- High Growth Markets (top 25 countries for demand for rail steel)
- Analysis of Project Pipeline and Opportunities by Expected Delivery (upto 2022, 2022-2027 and 2027-2030)
- Open Tenders
- Outlook and Opportunities

5. Mode-wise Requirements for Steel during 2019-2030

- Metro Rail/Subway/MRT/Rapid Transit
- High Speed Rail (HSR)
- Light Rail/LRT/Tram/Streetcar
- Monorail/Automated people mover (APM)
- Commuter Rail/Suburban Rail
- Inter-city/Inter Country/Passenger Rail

6. Region-wise Outlook and Projections 2019-2030

- Overview
- North America
- Latin America
- Asia Pacific
- Europe
- Middle East
- Africa

7. Competitive Landscape

- Current Market Shares
- Player Profiles
- Production Capacity
- Expansion Plans

PART 2: DATABASE OF PROJECT PIPELINE IN MS EXCEL

- Project Name
- Type of Project (Greenfield/Brownfield)
- Transport Mode
- Developer/Operator/Contract Awarding Authority
- Planned Network Length
- Planned Stations
- Expected Date of Completion
- Project Cost
- Consultants (studies, planning, design, etc.)
- Contractors (civil works)
- Current Status
- Key Contact
